

Organic Product Summary Update – Handlers, Processors, & Brokerage/Marketing Co.

BUSINESS NAME:

WSDA ORGANIC CERTIFICATION NUMBER:

COUNTY WHERE BUSINESS IS LOCATED:

STATE WHERE BUSINESS IS LOCATED:

This form provides an opportunity for you to tell us about any changes in your certified products, and ensure our records match the organic products handled or processed by your operation. The information you provide on this form should reflect the organic products you wish to have listed on your organic certificate for the upcoming year, as well as noting any discontinued products that should be removed from your certification.

Product and Label Overview

In the table below, please list **ALL currently certified products**, as well as any **new organic products**, handled or processed by your company. Please include both products owned by your company and products custom processed or labeled by your company.

If any changes have been made to a label and/or formulation since the information was last submitted to WSDA, an updated label and/or formulation must be included. **To add a new product to your certification the following is required:**

Handlers: A copy of the organic certificate and the label for all new organic products must be submitted and approved in order for the product to be added to your organic certificate.

Processors: A product formulation, label, organic certificates for all organic ingredients, and information regarding any non-organic ingredient, must be submitted and approved in order for the new product to be added to your organic certificate.

Please attach any product lists or catalogs, if applicable.

Organic Product Name – Exactly as it appears on the product label and/or your Organic Certificate (Please include both products owned by your company as well as products custom processed or labeled by your company)	New Product? OR Change in Product Label or Formulation? (Please specify)	Discontinued Product? (Product will be removed from your certification)

Attach a separate sheet of paper if necessary.
